

# SERVICE WELDING & MACHINE COMPANY

INCORPORATED

*Tank Manufacturers*

AREA CODE 502/585-4295

700 EAST MAIN STREET, LOUISVILLE, KENTUCKY 40202

**September 12, 2011**

**This letter applies to all makes and models of steel tanks that we have manufactured in any time period, including all:**

- |                                 |                    |
|---------------------------------|--------------------|
| • <b>Single-wall</b>            | <b>Double-wall</b> |
| • <b>Jacketed tanks</b>         | <b>Sti-P3</b>      |
| • <b>ACT-100</b>                | <b>UL 2085</b>     |
| • <b>Non-UL storage vessels</b> | <b>UL 58</b>       |
| • <b>Permatank</b>              | <b>UL 1746</b>     |
| • <b>UL 142</b>                 |                    |

**All steel tanks are compatible and suitable for use with all blends of fuels meeting ASTM standards, including ethanol blends from E10 to E100. All tanks are also compatible and suitable for use with all blends of biodiesel, from B2 to B100. Testing has been done proving compatibility of steel by several sources including Oak Ridge National Lab sponsored by DOE in collaboration with UL and NREL), SwRI, DNV and STI (through Battelle). To access test reports and other information on biofuels, follow this link:**

**As always, if switching product service, the tank system should be properly cleaned. See STI Recommended Practice, R111, "Storage Tank Maintenance" for further information.**

**If you have any questions about our products or about this statement, please contact the writer or Steel Tank Institute; Ms Lorri Grainawi**

**Thank You**

**Carl F. Greer, Jr  
Vice President**
